```
floatingActionButton(
    onPress: () => MyBloc().inputSink.add('Hola Mundo!')
```

```
StreamBuilder(
  stream: MyBloc.outputStream,
  builder: ( BuildContext context, AsyncSnapshot snapshot ) {

    return Container(); // El nuevo Widget a dibujar

}
```

```
StreamBuilder(
  stream: MyBloc.outputStream,
  builder: ( BuildContext context, AsyncSnapshot snapshot ) {

    return Container(); // El nuevo Widget a dibujar

}
```
